

1) Please sketch the shape of the beam as it appears to you. Your sketch should include two lines – one will show the top part of the beam and the other will show the bottom part of the beam.

2) When you are standing with your back to the lighthouse and the beam is passing over your head, it looks as if the beam is (circle one)

- a) Curving up towards the sky
- b) Horizontal (parallel to the ground)
- c) Curving down towards the ground
